

Industrial Placement

Glasgow – Actuarial and Benefits

This is an exciting opportunity to join an award winning, independent pensions, investment and risk consultancy.

We are an equal opportunities employer and value diversity. We positively welcome applications from all sections of the community.

This 9-month placement, starting late June 2019 is open to candidates who enjoy and are enthused by working as a team, manipulating and analysing complex data, thinking critically, communicating effectively and building valuable relationships with those you work with.

You will pursue difficult challenges, adapt to unfamiliar or changing situations and seek out opportunities for self-development. You'll strive to work efficiently and handle deadlines effectively

Key responsibilities will include but not limited to:

Firm Wide

- Using analytical skills to analyse complex data.
- Applying mathematical knowledge to solve often complex and challenging problems.
- Learning to use sophisticated modelling to help support the advice we give to our clients.
- Presenting the results of our calculations and modelling in an engaging and compelling way.
- Proactively liaising with people in the business to gather information on the firm and consultant career path.
- Responsible for careful time recording and allocation to appropriate client and job codes.
- Adhering to the firm's Information Security standards, policies

Minimum entry criteria:

- Penultimate year university student (i.e. will be moving into final year after placement or continuing university study after final year through a Masters or Post Graduate Diploma, after placement).

Or

- Graduated but planning to study a Masters or Post Graduate Diploma starting in 2020.
- On track to achieve or have achieved minimum 2.1 Honours Degree or equivalent in any discipline.
- Minimum A-level Maths Grade B or Scottish Higher Maths Grade A, or equivalent
- Minimum GCSE English Grade B or Scottish Higher English Grade at C or equivalent
